IMRAN AHMED

INDEPENDENT WEB DEVELOPER

Email: project.developer.tech@gmail.com
Phone: +880 1957-329211
Location: Sirajganj Sadar, Bangladesh
Portfolio: myprojectinfo.vercel.app

PROFESSIONAL SUMMARY

Dedicated Independent Web Developer specializing in feature-rich Progressive Web Apps (PWAs) and browser-based web applications engineered with modern vanilla JavaScript (ES2023+) and Firebase services. Demonstrated expertise in building offline-first architectures, real-time database integrations, dynamic developer utilities, and community management platforms. Passionate about clean code standards, performance optimization, and intuitive UI/UX design, seeking opportunities to leverage technical capabilities in international web development environments.

CORE COMPETENCIES

- Progressive Web Apps (PWA) & Offline Caching
- Vanilla JavaScript Architecture (ES2023+)
- Responsive UI/UX & Clean CSS Architecture
- Real-Time Cloud Databases & Authentication (Firebase)
- Browser Canvas API & Data Visualization
- Client-Side Data Management (IndexedDB & Web Storage)

TECHNICAL SKILLS

Core JavaScript & Frontend:	JavaScript (ES2023+), HTML5, CSS3, Canvas API, Web Components, DOM Manipulation, Modern UI/UX Design
PWA & Performance:	Progressive Web Apps (PWA), Service Workers, Cache API, IndexedDB, Web Storage, Performance Tuning
Backend & Cloud Services:	Firebase & Firestore Realtime Database, Firebase Authentication, GitHub OAuth Integration
Version Control & Hosting:	Git, GitHub, GitHub Pages, Vercel Web Deployment & Cloud Hosting

KEY PROJECTS

1. Rupsha Jonokollan Foundation
https://rupshajf.vercel.app

Community foundation web platform engineered to streamline member registration, identity verification, and administrative record management.

Technologies: *Vanilla JS (ES2023) • Firebase Firestore • Firebase Auth • Responsive CSS*

2. Quran Bangla
https://quranbangla.vercel.app

Feature-rich Bengali Quran reading Progressive Web App (PWA) with full offline Surah access, audio recitation, bookmarking, and multi-device cloud sync.

Technologies: *JavaScript (ES2023) • PWA Service Workers • IndexedDB • Firebase Firestore*

3. Tech Verse Code Editor
https://tvcedit.vercel.app

Lightweight, browser-based collaborative code editor built with vanilla JS for seamless in-browser code writing, formatting, and live output preview.

Technologies: *JavaScript (ES2023) • Web Components • DOM Manipulation • LocalStorage*

4. Tech Verse Site
https://tvsites.vercel.app

Modern, responsive official portal for the Tech Verse developer ecosystem, showcasing open-source tools, projects, and interactive documentation.

Technologies: *HTML5 • Modern CSS3 Grid/Flexbox • Vanilla JS • Vercel Hosting*

5. Tech Verse Course https://tvcourse.vercel.app

Interactive web-based educational platform providing structured web development modules, code challenges, and learning progress tracking.

Technologies: *Vanilla JavaScript • Web Storage API • Interactive UI Components*

6. Tech Verse Exam https://tvexam.vercel.app

Online examination and automated assessment platform designed for digital testing, automated score calculation, and student analytics.

Technologies: *JavaScript (ES2023) • Dynamic DOM State Management • Firebase Auth*

7. BuyZen Shop https://buyzenshop.vercel.app

Sleek, high-performance e-commerce web application featuring dynamic product catalog filtering, interactive cart management, and order submission.

Technologies: *JavaScript (ES2023) • Cart State Management • Responsive UI Design*

8. MazeFlow https://imran-s-project.github.io/MazeFlow/

Interactive algorithm visualizer rendering real-time maze generation and pathfinding algorithms directly on HTML5 Canvas.

Technologies: *JavaScript (ES2023) • HTML5 Canvas API • Algorithmic Logic • GitHub Pages*

9. Tech QR Code Generator https://tvqrcode.vercel.app

Fast, client-side dynamic QR code generation utility with customizable design parameters, instant high-resolution preview, and export options.

Technologies: *Vanilla JS • QR Encoding Engine • Canvas API • Client-Side Export*

10. Academic Question Generator https://imran-s-project.github.io/QuestionGenerate/

Automated test paper generator designed for educators to rapidly assemble custom academic exam papers with standardized formatting.

Technologies: *JavaScript (ES2023) • DOM Template Engine • Print CSS Optimization*

EDUCATION

Higher Secondary Certificate (HSC) — Science Group **2nd Year (Ongoing)**

Moulana Bhashani College, Sirajganj, Bangladesh

LANGUAGES

English: Professional Working Proficiency

Bengali: Native Speaker
